| | 500 minutes | £10 | |
| UK Texts ^{3,5} | 400 texts | £2 | |
| | 3000 minutes | £5 | |
| Calling abroad from the UK | Cheaper calls and texts to selected countries from the UK ⁶ | Free | Open ended |

PLAN PRICE GUIDE

1. A one minute minimum call charge applies. Thereafter, calls are charged on a per minute basis.
2. Calls to some charity helplines (e.g. Childline) are free to call. For a full list please visit the help section of our website, www.ee.co.uk
3. We will attempt to deliver the text message for 72 hours. If it has not been delivered after 72 hours it will be deleted, but you will have been charged. Includes messages sent from the EE website; www.ee.co.uk You will be charged per text message sent to non GSM networks.
4. VoIP and using your phone as a modem 'tethering' use will be deducted from your Add-On data allowances. You cannot use data for peer-to-peer file sharing. See points to note below.
5. Add-On minutes and texts are from the UK to UK mobile networks, voicemail, and numbers beginning 01, 02 and 03 (excluding Jersey, Guernsey and Isle of Man). Calls & text messages to certain MVNO ranges and call forwarding services are not included in add-on connection. See 'points to note' for more information.
6. Refer to the 'Calling abroad from the UK' section in the 'non-standard' charges guide for details of included countries and individual country rates.

Please go to the help section of our website, ee.co.uk, for details around 'non-standard' service charging. This includes charges for numbers starting with 05, 070, 09 and 118. Calls to these numbers are subject to a 1 minute minimum call charge. Thereafter, calls are charged on a per minute basis.

Points to note

Notes on UK calling

Calls within the UK only are calls made or received in England, Wales, Scotland or Northern Ireland. As you'll know, the Channel Islands and the Isle of Man are not part of the UK. That means that, although customers of networks there will have a telephone number starting with 01, 02, 03 or 07, calls to those numbers from the UK will be classed as a call to an EE Roaming Zone. See our Non Standard Price Guide for more information.

Note that if you use the services on or near a border area, you may not be able to access the UK network but may instead be connected to the network of one of our roaming partners. Calls that you make will then be charged as if you were roaming (and will not come out of any UK add on allowance you have).

What usage is included in my Add-On or Pack allowance?

Calls and texts to many of the most popular UK mobile numbers are included in your Add-On or Pack allowance. Inclusive calls currently include (but are not limited to) calls to the UK mobile numbers allocated to the national UK GSM cellular network operators EE, T-Mobile, Orange, Hutchinson 3G, 02, and Vodafone. On pay as you go, calls to one of the mobile virtual network operators (MVNOs) exclusively using numbers allocated to these UK GSM cellular network operators (e.g. Virgin, Tesco, Lebara) are also included, as well as calls to most other MVNO number ranges, such as those currently allocated to Lycamobile.

EU Roaming

If you have a Pay As You Go Pack you can access your allowances in the EU/EEA (Our Europe Zone) for either 24 hours or 7 days for an additional charge. You can only opt in to the additional charge when you arrive in our Europe Zone. You will need sufficient credit balance and the charge is deducted from your credit balance when you opt in.

If you do not have an active Pack or do not opt in to access your allowances in our Europe Zone, you will be charged as set out in Pay As You Go Non-standard Price Guide at ee.co.uk/pricguides. You will not be able to use data unless you buy an EU roaming data add-on.

Roaming outside of the EU continues to be chargeable – please see our Non Standard Price Guide for more information

Republic of Ireland

If you have a PAYG Pack, when you are in the Republic of Ireland calls, text and data usage within the Republic of Ireland and to the UK are included within your allowance and the daily charge does not apply unless you have a limited call or text allowance. Once you have used up your allowance, calls or texts from the Republic of Ireland to the UK will be subject to the daily charge and calls within the Republic of Ireland will be subject to standard rates as set out in the standard and non-standard price guide. When you are in the Republic of Ireland the daily charge applies to calls and texts to the EU/EEA/Switzerland.

Which calls and text messages to UK mobile numbers are included in my add-on allowance?

Calls and texts to many of the most popular UK mobile numbers are included in your add-on allowance. Inclusive calls currently include (but are not limited to) calls to the UK mobile numbers allocated to the national UK GSM cellular network operators EE, T-Mobile, Orange, Hutchinson 3G, 02, and Vodafone. On pay as you go, calls to one of the mobile virtual network operators (MVNOs) exclusively using numbers allocated to these UK GSM cellular network operators (e.g. Virgin, Tesco, Lebara) are also included, as well as calls to most other MVNO number ranges, such as those currently allocated to Lycamobile.

Which calls and text messages to mobile numbers are excluded from my add-on allowance?

Calls and texts to some numbers starting 07 are not included in your add-on allowance. Excluded mobile numbers include (but are not limited to) numbers used to provide call forwarding services, as well as to some MVNO number ranges. For a full list of 07 number ranges that are not included in allowances please visit the 'help' section of our website, ee.co.uk. We may add numbers to the list of excluded mobile numbers from time to time at our discretion. Please also note that if you are calling someone who has ported an excluded mobile number to another operator, calls to that number may still be excluded from your allowance.

Are all 07 numbers UK mobile numbers?

It is important to note that not all numbers beginning with 07 are mobile numbers. 070 numbers are used for 'follow me' services and are not mobile numbers. 076 numbers are used for paging services. Some 07 numbers are used for call forwarding services. Calls to these numbers are not included in allowances, visit the 'help' section of our website, ee.co.uk

Data options

You'll need 3G or 4G coverage to use mobile internet on your phone and a compatible device. You can only use mobile internet on our 4G network if you're within a 4G enabled area and in range of a 4G base station. Your 4G phone may not be compatible with any 4G network outside the UK. You can check your 3G and 4G coverage at ee.co.uk/coverage

For further information on terms and conditions please see ee.co.uk/terms The Non Standard Price Guide includes the prices and legal stuff for all our other additional services, like using your phone abroad and calls to premium rate numbers.

General

- You must make a connection action at least once every 180 days. If you do not, your SIM card will be disconnected from the network, and you will not be able to use the service at all. You will also lose your mobile phone number. Any credit on your account at the time of disconnection will be forfeited
- Connection actions' are:
 - Making a chargeable outbound call
 - Sending a text message
 - Topping up your account
 - Making a payment for an Add-On
 - Registering your details
- We can place a charge on your account if a bank reverses a debit or credit card payment to your account. The amount of the charge will be the same as the amount recovered by the bank. Your account's credit balance may drop below zero as a result of this charge. If this happens subsequent credits will, in the first place, be applied to clear any such negative balance
- Any text message sent to you, which doesn't get through because you are out of credit will be lost
- To make or receive a chargeable call or receive a voicemail message, you must have sufficient credit on your account to enable you to make a call of one minute duration. The call will be terminated when the balance on the account reaches zero during the call. To send a text as part of an allowance or multimedia message, you must also have a minimum of 1pence credit available
- Calls are charged by the minute (unless otherwise stated) and rounded up to the nearest penny. If you use, whether directly or through a third party, any device to route or re-route voice, text messages or other services on, from or to the network or you sell or attempt to sell or otherwise provide commercial services using our network to any third party, we'll remove your free minutes or texts from you and/or disconnect your SIM card from our network without giving you any advance warning
- Charging starts when a call is answered by a person or answering device.
- A call ends when:
 - a) you end the call on your device; or
 - b) 16 seconds after your calling device loses signal for any reason (note: we continue to maintain the call in case your device re-establishes a signal with our network within this period); or
 - c) you do not end the call on your device up to 30 seconds after the last third party you were connected to has ended their call

- A text message consists of up to 160 characters. If you send a longer message, you will be charged for two or more text messages as appropriate
- While we use all reasonable endeavours to ensure that your calls are processed in the order that they are made, and that they are charged for the appropriate period, for reasons beyond our control it is possible that this may not happen
